

Pilot is an independent insurance adjusting firm headquartered in Mobile, AL, with additional offices in Dallas, TX and Hudson, OH.

Pilot has 16 Cubby+ units at their facilities.

Cubby+ are located at Pilot building entrances and package intake areas.

Employees use the Cubby+ to sanitize anything in their pockets, including wallets, phones or keys. Tablets and laptops are often treated before and after meetings.

“ QUICK AND EASY
I can't believe that it's this easy! It was so quick, I'm going to use it every time I walk in. There's a ton of room – I can treat an entire laptop!
”

WHY THE CUBBY+?

We are serving multiple goals with implementation of the Cubby+ units. First and foremost, we want our employees and their families to be safe. The Cubby+ gives anyone who comes into our facilities an active ability to prevent the spread of Covid-19. Like everyone else, we enhanced our cleaning and screening procedures in accordance with CDC guidelines. We wanted to do more and the Cubby+ is part of our greater effort.

In addition to preventing the spread of viruses, using Cubby+ gives our folks an additional assurance that they are protected and have a non-chemical option that is quick and easy and does not harm the item being treated. That peace of mind is precious to us and our employees.

WHAT DO YOU LIKE?

The Cubby+ is no mess, no fuss, clean, dry and silent. It does its work without additional staff or training. It is efficient and our folks find the short wait entertaining without tying them up.

In addition to its functionality, the Cubby+ provides reassurance. It plays a significant role in our plan to provide a safe and comfortable work environment. It reminds our employees every day that we're going the extra mile.
